The MILITOR

"The Motorcycle that is Built and Drives like an Automobile"

Shaft Drive. 3 speeds forward and reverse

Solo Car with *Complete* Electrical Equipment, including War Tax, $450. Idler Wheels $25 extra, net., f. o. b. Springfield, Mass.

Militor with 2 passenger Side Car and *Complete* Electrical Equipment, Including War Tax, $575. f. o. b. Springfield, Mass.

Pivotal floating front axle—channel steel chassis—cantilever spring frame and seat suspension—four-cylinder unit power plant—selective sliding gear transmission—three speeds forward and reverse—shaft drive—starter—idler wheels (can be raised or lowered automatically from the seat while driving, which make the Solo Militor as easy to drive as an automobile). 40 to 50 miles per gallon of gas.

BUILT upon U. S. Army specifications for War purposes. Its *new* type of construction; its great strength and endurance; its riding ease and its general air of dependability and quality at once established the Militor as the looked for and needed development in automotive transportation.

Safe, strong and very compact, taking up little room to house—remarkably cheap to maintain.

Requests for agencies are coming in from all parts of the world. Dealers are recognizing the possibilities of the Militor—for pleasure, light delivery purposes, police and militia duties—and for increased general riding due to the thousands of army-trained motor-cyclists now back in civil life.

Reputable and forceful dealers are invited to write for details

HOUSE OWNERS SHOULD READ THIS ABOUT "COLONIAL" PAINT

OVER 100,000 GALLONS HAS BEEN USED IN THIS VICINITY ALONE SIMPLY BECAUSE IT IS AN HONEST PAINT

A hundred thousand gallons is an enormous quantity, and no paint could possibly sell that way in any one neighborhood unless it satisfied people thoroughly. Colonial paint is made just as well as paint can be made. It spreads, sticks and wears remarkably, and that is the one great test of any paint. That is what tells IN THE END. That is TRUE ECONOMY in painting.

SEVEN GALLONS OF COLONIAL PAINT WILL GIVE THE AVERAGE HOUSE TWO COATS

Five gallons will do it if the surface is in good condition. Look into this. Get the booklets and color cards. Come to the store if you can, or let us mail them.

WELCOME TO SPRINGFIELD

TO our thousands and thousands of friends, not only in the home field, but throughout the entire country, the Eastern States Exposition and Dairy Show, literally extends to you the "glad hand" and bids you a welcome to the third annual exposition in Springfield, September 14-20 inclusive.

The show is made possible through the public spirit of many men of the ten North Atlantic States who believe in the rehabilitation of rural life. During the darks days of 1917 and 1918 the American people responded nobly, in economies and larger productions in farms and gardens, to the slogan "Food will win the war." In the brighter light of today one of the greatest national problems is the high cost of living, and more and better farming will help to give the answer.

Farming and the breeding of livestock is no longer a haphazard affair. It is a science, and exhibitions like that arranged in Springfield are designed to aid the efforts of the national and state departments of agriculture and the county leagues and farm bureaus, which are doing such a notable work in promoting more intensive and extensive agriculture and purebred stock breeding, and arranging for improved transportation and distribution facilities.

The Eastern States Exposition and Dairy Show has brought together from many states the finest types of livestock—horses, dairy and beef cattle, sheep and swine; the best products of gardens, fields and orchards; the Boys' and Girls' club work; the latest and most efficient aids in machinery and utensils for the farm and home, and a long list of other things that will interest, instruct and inspire.

9. VOCAL SEXTETTE FROM "Lucia" ..... *Donizetti.*
   (Introducing entire opera company).
10. PRELUDE AND DANCE OF THE HOURS, from the Opera "La Gioconda."

Like all classical ballets, the "Dance of the Hours" in the second act of "La Gioconda" tells a story, and it expresses an idea. The first of the four movements in the "Dance of the Hours" suggests the Dawn and prepares the way for the event in the second movement of the Day symbolic of Light, Art, Order, Joy and Progress. In the third movement the day pales as the Dusk or Evening appears, forcasting the approach in the last movement of the Night, time of evil and crime. The dancers symbolizing Night are masked. They are hostile to the earlier hours with whom they proceed to struggle for supremacy. Night, the powers of Ignorance and Evil, is for a moment victorious but gradually the brighter and purer influences of Day (now aided by Dawn and Dusk) assert themselves again, rise and defeat the influence of Night, whose masks are torn from them as Progress and Light triumph.

5. BALLET MUSIC FROM "William Tell" ..... *Rossini.*

Gioachino Rossini, the celebrated Italian Composer, takes for his theme the story of William Tell, the distinguished patriot and chief instrument of the revolution which delivered the Swiss Cantons from the German yoke in 1207. The opera was first given at the Academy of Paris in 1829. It is the longest opera ever written and because of the unusual length has not proved as popular as many others, althought the overture and ballet music are used extensively. The latter is considered by musicians Rossini's most artistic creation and has been pronounced by Perloiz the most beautiful ballet ever written.

6. OVERTURE, "Fingal's Cave" ..... *Mendelssohn.*
7. (a) Toujours Gallant ..... *Fahrbach.*

the mazes of the dance. A bell sounds, she is in church praying for her beloved. Anon, her dream carries her swiftly far away from her home; she is in the Alps and listens to the mountaineer's plaintive yodel and the Switzer's tuneful song. But hark! Martial sounds call her beloved to war; she hears the soldiers' tramp; more and more troublous are her dreams; she wakes—daylight has come—her dream is over.

8. GRAND OPERA, "Cavalleria Rusticana" ..... *Mascagni*

Cast of Characters:

Santuzza, a village girl, ... Turridu, a young soldier, ...
Lola, wife of Alfio ..... Alfio, a teamster, ...

THE STORY

Story of "Cavalleria Rusticana" Turiddu, a young Sicilian villager and son of Lucia, the tavern keeper, has recently returned from his military service to find that his old sweetheart Lola has become the wife of Alfio, the carrier. He makes love to Santuzza, who trusts him to her sorrow, for tiring of her he renews he relations with Alfio's wife. Easter morning has come and Santuzza appeals to Mother Lucia to induce Turridu to keep his promises to her and give up Lola. Alfio arrives from his trip to the neighboring city suspecting nothing. The entry of Turridu is followed by an earnest dialogue between him and Santuzza, which is interrupted by the approach of Lola on her way to church. Having concealed her indescretions from the public, Lola maintains a haughty air, and enters the church, while poor Santuzza, whose sin is a public scandal, has to remain without. Turridu's conscience does not prevent him from following Lola into the sacred edifice. Along comes Alfio, to whom, in her jealous frenzy, Santuzza tells the whole story of her wrong and his shame. "I'll be revenged upon them," the deceived husband declares, and the scene ends. During the interim between this and the closing scene the famous intermezzo is played. The action in the second scene is rapid. Easter services in the church are over and a day of festivity begins. Turridu sings a stirring drinking song. Alfio enters and denounces him, bites his ear as a challenge-Sicilian style. Turridu accepts, realizing that should he be killed it would be his just deserts. He takes a farewell of Mother Lucia, his last request being that she protect and care for the unfortunate Santuzza. He leaves the stage for the duel, when presently the cry arises from the crowd, "Turridu is killed," and the scenes ends abruptly.

9. GRANDE FINALE ..... *"America"*

Introducing Liberati's own new air to the old words of "My Country 'Tis of Thee," which is America's own music to the anthem and can not be confused with the old tune, which is sung by several European nations.

"THE STAR SPANGLED BANNER".

RAILROAD SWITCHING

To begin with, there is in all cases what is known as an internal switching charge of $3.00 per car on all loaded cars. Irrespective of over what Railroad cars have been received or over what Railroad cars may be forwarded, this applies to all.

On all car-load freight, received over or forwarded over the Boston & Albany Railroad, or in other words where the Boston & Albany receives a road haul, switching up to the connection at the Exposition Grounds will be free of charge.

On less car-load shipments which have been received over the Boston & Albany Railroad or forwarded via the Boston & Albany Railroad, or in other words where the Boston & Albany receives a road haul, and where shipments consist of 12,000 lbs. or more, switching will be free of charge up to the connection of the Exposition switch. When less car-load shipments as above consist of less than 12,000 lbs. a switching charge of $3.50 per car will be assessed. This, of course, is in addition to the $3.00 internal charges enumerated above.

On cars to or from the New York, New Haven & Hartford Railroad or Boston & Maine Railroad when destined to, or coming from points on or via the New York, New Haven & Hartford Railroad or Boston & Maine Railroad to or from which thru rates are in effect, the switching charge up to the Exposition switch will be 60c per ton.

(Buy Fisk)

SK

BIG, handsome tires, outstanding for their good looks, their mileage and for their extended protection against skidding. Watch the safety buttons on Fisk Casings that have already run seven or eight thousand miles or better. That's the tough tread that dealers and users talk about.

Fisk Cords give full mileage and full satisfaction that can be measured against any tire regardless of advertised mileage. No Cord tire gives more mileage than the Fisk.
